

Let's Educate A Rainbow Nation

BY ROSLYNNE TOERIEN

Calling all South African's - it's time to take a stand
Gather round and join us as we read across our land.

Open a book, which opens the mind,
Incredible things inside you will find.

Amazing adventures are sure to be had
As you travel the world, or simply your land.
No pictures, no problem - imagination is key.

Think and dream big - what can you see?

Reading is fun and knowledge is power.

The future is ours, don't waste another hour.

So, learn to read and read to learn because
readers make leaders and leaders build nations.

It is up to us to equip future generations!

Now once the book is finished, no more pages left to turn -

Pay it forward, pass it on so someone else can learn!

L E A R N – Let's Educate A Rainbow Nation!

Let's Educate A Rainbow Nation
